

17th March 2020

Dear Parent / Carer

With the changing advice from government about Coronavirus, we have received further guidance from the local authority and Public Health.

The government's current advice is that schools should remain open and in line with that the local authority have asked us to do all we can to keep the school open. **However, it is regrettable that we now need to ask students in Years 7 & 8 to refrain from attending school on Wednesday 18th, Thursday 19th and Friday 20th March 2020. Staff will be publishing work for students to complete on Show My Homework and by email.**

Should you have any concerns about your child or any member of your family, please follow the NHS published advice (<https://www.nhs.uk/conditions/coronavirus-covid-19/>)

We will update you in line with government advice as soon as we have any additional information.

Yours faithfully
