

## **FOOD PROCEDURES WITHIN MAYFIELD SCHOOL**

At Mayfield School, we operate two kitchens and six service points. We are committed to providing stringent procedures to ensure our commitment to Health and Safety, Special Diets, and Religious Dietary needs are ensured during meal times.

### **Delivery, Storage, and Preparation of Food**

We operate two kitchens in Mayfield School. One kitchen is for Halal meat food storage and preparation only and the other is for all other food production. Halal meats are delivered, stored, and prepared in this separate kitchen only and the kitchen is labelled throughout as a Halal only area. All serving utensils and dishes for halal meats are washed and stored in the halal kitchen.

### **Service of Food**

All six service points serve both Halal and non-Halal foods. All meat dishes that are Halal, are labelled "Halal" at the service points. All utensils and serving dishes for Halal meat dishes are labelled "Halal" and are returned to the Halal kitchen when service is finished. Sandwiches and grab and go items made with Halal meat are printed with "Halal" directly on the label.
