

PROMOTING EQUAL OPPORTUNITIES

Introduction

The overall objective of our Equality Policy is to provide a framework for the school to pursue its duties to eliminate unlawful discrimination and harassment; promote equality of opportunity; and promote good relations and positive attitudes between people of diverse backgrounds in all its activities. Through this Equality Policy, we seek to ensure that no member of the school community or any other person through their contact with the school receives less favourable treatment on any grounds which cannot be shown to be justified. This covers race, colour, nationality, ethnic or national origin, religion or belief, gender, marital status, responsibility for children or other dependants, disability, sexual orientation, gender reassignment, age, trade union or political activities, socio-economic background, where the person lives or spent convictions.

The principles of this policy applies to all members of the extended school community - students, staff, governors, parents and members of the local community.

The School's Context

Mayfield School is a mixed 11-18 comprehensive foundation school situated in the south east of the London Borough of Redbridge with more than 1,815 learners on roll. Average prior attainment of our students on entry to the school is below the national average for maintained mainstream schools although we are well aware that students come to us with a variety of prior attainment and learning experience. We are pro-active in assessing the needs and potential of our students and seek always to provide learning experiences that will challenge all appropriately to enable them to make the best possible progress.

Our student population is a diverse one:

- 95% of our students come from minority ethnic groups, 70% having English as an additional language (as at July 2018);
- 66 different languages are spoken in the homes of our students;
- Around 20% of the total student population qualifies as eligible for free school meals;
- 32% of the total student population are Pupil Premium students;
- 8% of our students are identified as having special educational needs.

- learning is a partnership between students, parents and school. It can only take place in a calm, ordered environment;
- all members of our school community have joint responsibility for the success of the school and its students and for building trust and a positive relationship between our school and its wider community;
- working together, staff and students, will develop a culture of excellence within our school;
- being vigilant in identifying all forms of discrimination is at the heart of what we do and this enables us to be proactive in eradicating them;
- we can develop and maintain a learning environment that fosters a sense of engagement and belonging to a thriving and purposeful community;
- we provide a secure environment in which all can flourish and where every child matters;
- we should prepare students for life in a diverse society in which they are able to take their place as active members of a community that is local, national and international.

The School's Overall Approach

Teaching, Learning and Curriculum

We aim to teach students to understand others, to promote common values and to value diversity, to promote awareness of human rights and of the responsibility to uphold and defend them, and to develop the skills of participation and responsible action.

- Teachers ensure that the classroom is an inclusive environment in which students feel all contributions are valued. Where groups or individuals are marginalised, the teacher takes positive steps to include them;
- Teachers undertake to ensure that they are aware of the language abilities and needs of all their students;
- Teaching is responsive to students' different learning styles and takes account of their experiences and starting points, in order to engage all students;
- Student grouping in the classroom is planned and varied. Allocations to teaching groups are kept under continual review and are analysed by ethnicity, gender and background;
- Teaching styles include collaborative learning so that students appreciate the value of working together. All students are expected to question, discuss and collaborate in problem solving tasks;
- Teachers encourage students to become independent and to take responsibility for their own learning;
- Teachers challenge stereotypes and foster students' critical awareness and concepts of fairness, enabling them to detect bias and challenge inequalities;
- Resources and displays reflect the experience and backgrounds of students, promote diversity and challenge stereotypes in all curriculum areas. They are reviewed regularly to ensure that they reflect the inclusive ethos of the school;
- Citizenship is taught through themed days, but also permeates the work of the school both within and outside the curriculum.
